

*Treatment and Landfill Operation:*

28 acres of land near Udnoor village has already been procured and the remaining required land is under process of acquisition.

Composting would be one of the treatment and processing option. City Corporation is reviewing on the received proposals and Agency profiles working on treatment of Municipal Solid Waste by Composting and Vermi-Composting.

Scientific Sanitary Landfill to be will be undertaken in future.

*Development of Landfill site:*

*Construction of Approach Road and Compound Wall to the landfill site will be taken up and for the same the roposal is sent under 12th finance.*
